<p>We Hope you Enjoy the added features of the Advent Next Generation Integrated Navigation System.</p> <p>For your safety, please do not operate the system while driving.</p> <p>This Quick Start Guide describes the features, uses, settings etc. of the Navigation System, see the vehicle owners manual for the car audio system. A complete Navigation manual can be downloaded at www.adventproducts.com.</p> <p>Advent Customer Service: 800-645-4994 Advent Technical Support: 800-323-4815</p> <p>Website: Manuals, Specifications, Information: WWW.ADVENTPRODUCTS.COM</p> <p>Map Updates, Map Add-on's, Technical support: WWW.NAVIEXTRAS.COM</p> <p>Due to continuous improvement, design and specifications may change without notice.</p>	<p>System Selection</p> <p>Switching between the OEM system and the interface can easily be done several ways.</p> <p>1: Press Next on the Screen to scroll through the Menu Options pages.</p> <p>2: You can select the Navigation / Media interface by pressing the source button on the radio for 2 seconds at any time (see below).</p> 	<p>Interface Home Page</p> <p>The Main menu page of the interface contains the choices for Navigation, HDMI, Aux in, and ODB vehicle information and System Settings.</p> 	<p>Navigation</p> <p>Touch the Navigation Icon to enter the IGO map. Please refer to the IGO map quick start guides for user instructions.</p> 	<p>Navigation Path</p> <p>The Navigation Path page is used only for maintenance when an update is done. Use caution: Changing settings here could cause your Navigation to stop operating. If this screen appears when starting the navigation application, make sure that Automatically Run GPS is checked, and then press RUN GPS. This can take up to 1 min. for the Navigation software to re-load. If your GPS does not start correctly contact customer service for support.</p> <p>Autorun Navigation software: Select To start Navigation without seeing this menu each time.</p> <p>Browse: Browse will allow you to see the files and contents of the Navigation Memory folder.</p> 	<p>Navigation Path Selection</p> <p>This screen will allow you to select the correct file to run the navigation application. The System is preset from the factory and this should not be changed unless you are instructed to do so by Tech Support personnel. Selecting the wrong file could stop your Navigation unit from operating correctly.</p> 	<p>HDMI</p> <p>The HDMI input will allow you to view your compatible* smart phone's screen or any other device with a HDMI output on your Entertainment Systems screen while the vehicle is NOT moving. This input does not offer control of the connected device, only the image and audio are accessible FMVSS and Local laws do not allow the viewing of video by a driver or in a position the driver may view while the vehicle is moving. The system will automatically black out the screen once the vehicle starts moving but audio will still be heard.</p> <p>NOTE: You're Phone or other device may require a special adapter to view HDMI. Contact your Phone dealer for information regarding these parts. If your device can be viewed on a TV with HDMI input then it will be viewable on your Media system.</p> <p>Video: Once your device is connected touch the video button to start viewing.</p>
