

11 ADJUSTING THE GUIDELINES

Adjusting the guidelines:

By placing items behind the vehicle at the measurements shown above you will be able to easily and quickly customize the parking lines for this particular vehicle.

Once you have either marked the area or place items such as traffic cone behind the vehicle make sure the parking brake is engaged and no one is behind the vehicle.

- Place the vehicle into reverse gear and press the guideline adjustment key in the center of the 4 directional keys on the remote control.
- A series of position numbers will appear at the top of the screen. The system will always select the left line first. (XL)
- Press the button again to select the right guide line (XR).
- Use the up down left and right buttons to adjust the location of the selected guideline.
- To adjust the angle of the guidelines press the rotation keys below the 4 position keys to rotate the lines clockwise and counter clockwise.
- When you are finished place the vehicle in Park, the monitor will shut off and the positions will be saved in the RVM200's memory.

12 REMOTE CONTROL - OTHER FUNCTIONS

The keys outlined in red have no function and will not operate with the RVM200. This is normal operation and these are reserved for future use.

13 WARRANTY

DO NOT RETURN THIS PRODUCT TO THE STORE

Voxx Electronics Corporation ("the company") is committed to quality and customer service, and are pleased to offer you this warranty. Please read it through and contact the Company at 1-800-323-4815 with any questions.
